

# Travel Alarm Clock

OWNER'S MANUAL — Please read before using this equipment.

## REPLACING THE BATTERY

Your alarm clock comes with one LR44 button cell battery (installed) for power. Before using the clock, remove the plastic insulating strip from the compartment. When the clock stops working or dims, replace the battery. For the best performance and longest life, we recommend a RadioShack alkaline battery.

**Caution:** Use only a fresh battery of the required size and recommended type.

1. Pull up the battery compartment cover on the back of the clock to remove the battery.
2. Place an LR44 (1.5V) button cell battery inside the compartment with its positive side (+) up.
3. Replace the cover.

### Warnings:
